Indiana Code citation IC 6-3.6-9-2 require the State Budget Agency to publish estimates of statewide total local income tax certified distributions. In every odd-numbered year the State Budget Agency is required to publish an estimate of the statewide total amount of certified distributions to be made under each provision during the following two calendar years.

Estimates are listed below and were derived using statewide income tax growth estimated in the income tax model from the April 12, 2017 revenue forecast. The estimated 2018 and 2019 certified distribution amounts are based on estimated collections and rates and will change for the final 2018 and 2019 certified distribution amounts. These amounts should not be taken into account for financial planning or reporting purposes.
